## **Backup Folder Sync Crack Serial Number Full Torrent [Win/Mac]**

Backup Folder Sync is a software tool that can be used in order to create backups for all your important data, restore them, as well as schedule tasks. Simple installation and environment On the one hand, the installation process you are required to go through does not offer to download any kind of products that are not actually necessary for the program's proper function and it is over in a few seconds. On the other hand, the interface is organized in a neatly fashion, and encloses a simple design. It consists of several buttons and two panes which enable you to easily view a folder structure of your hard drive and details of the backup process. Simulate backups This software utility enables you to create backups with just a few clicks, and includes a color-coded system so as to help you easily figure out when subfolders or files are excluded or not. Moreover, it is possible to only simulate the backup and restore process. This means that it is not going to copy, timestamp or delete anything, instead it will just bring up a report. Reports and scheduled tasks You can schedule tasks on a regular basis and at a specified time and therefore, automating the backup process and saving you time. The main window shows you all files copied from one place to another, their size, as well as total duration and total number of items processed and skipped. Conclusion To sum up, Backup Folder Sync is an efficient piece of software, dedicated to people interested in backing up their data. The interface is accessible, the response time is good and Help contents are provided. Download Backup Folder Sync from Softonic: Backup Folder Sync is a software utility that can be used to create backups for all your important data, restore them, as well as schedule tasks.
